The guide does not include many sets it used to, the type is very small, but it's really the only guide available. Could stand some improvements0 of 0 people found the following review helpful. Great if all you need is pricesBy ChristopherIn the end, just a price guide. Not much here for a collector that wants to learn more about the sets, etc. They won't even spare a small description of the set because there are so many that need

to be listed. This is for the guy that still thinks he is going to get rich off sports cards 27 years after the collapse of the sports card pyramid scheme.0 of 0 people found the following review helpful. Five StarsBy CindyIf you collect cards you need this book.
