I collect Yu-Gi-Oh cards and just used it for that so everything I will say only pertains to those cards.They have a very extensive list of cards, but I found a lot of cards are not listed. The main one's I can think of off hand are some starter decks and premium pack cards. A lot of promos are

also missing. I was disappointed at this aspect of the guide. It's great for the most part, but don't be surprised if some of the cards are not listed. 0 of 0 people found the following review helpful.
