Beckett Racing Collectibles Price Guide 20th EditionBy Ed WilsonThis is, without a doubt, the best available guide on the market to give the collector of racing memorabilia a way to evaluate its approximate worth. My only complaint with this guide is that is never updates the older pieces, ie. an item that entered Volume 5 most likely still has the same "value" in this latest 20th edition. It would be really, really helpful if inflation and scarcity of items played a role in determining the value of older pieces. Other than that I find this set of Guides (I have them all) the best way to evaluate my collection.0 of 0 people found the following review helpful. Best for diecastBy R.
