There are lots of copies of original advertising which provided me with a wealth of information. The book is loaded with pictures, information on the doll as well as a value. It is a large, heavy book...wonderful!!! 0 of 0 people found the following review helpful. GREAT GIFT for a Doll Collector By Cynthia J. Salim I purchased this book as a gift for a doll collector. She was thrilled. 0 of 0 people found the following review helpful. I received my order in great shape. By Seraphina Thank you for a job well done. I received my order in great shape.

In looking through this book, you will see that many of the dolls have names. Where do they come from and why aren't all of them named? the named dolls were verified by a box they came in or a hang tag I some cases where neither was available, the owners remembered their names.
