**Dr. Robert Beeman, John B. Allen : Blue Book of Airguns, 10th Anniversary Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Blue Book of Airguns, 10th Anniversary Edition:

0 of 0 people found the following review helpful. Nice book came fast By Judy reisner Got this for my brother. He loves it. It has a lot of information in it that he likes. Nice book came fast. 4 of 4 people found the following review helpful. Airgun book is just Ok By Steve MI bought this book to try to find some details on some of the BB Guns I had in the 80's and early 90's. There is a lot of detail in this book however there is on average only 1 or 2 pictures of air guns per page (with about 50 airguns listed per page) i was hoping to find pictures of the airguns i had and see what make and model they where. Overall if your passionate about airguns this is probably a great book. It just wasn't what i was hoping for. 0 of 0 people found the following review helpful. Mr. Beeman "invented" the air gun---By Big Johnson-----Great book from one of the most knowledgeable men on the subject-----I have Beeman rifles almost thirty

years old and all work as new and with the care I've given them look as new----You'll learn much on all types and ballpark prices as well as history of the air gun/rifle----If you collect air guns You need one of these publications from Mr. Beeman, his best being his book or the R-1, but it's hard to find----enjoy

Co-written by the Godfather of the Airgun Industry, Dr. Robert D. Beeman, as well as John B. Allen, longtime associate editor for the Blue Book of Gun Values, the new 10th Anniversary Edition Blue Book of Airguns contains most popular 2012 and vintage makes and models, detailed descriptions, over 1,200 BW images identifying most popular makes and models, with up-to-date pricing. Sections on such vintage trademarks as Daisy, Crosman, Benjamin, and Feinwerkbau have also been greatly expanded.

Daisy congratulates the Blue Book of Airguns on their 10th Anniversary Edition. With 125 years in the airgun business, Daisy is well-known for introducing young people to the shooting sports. And, we respond to the needs of discriminating adult shooters with our PowerLine and Winchester Air Rifle brands. The Blue Book helps collectors establish a value for their antique Daisy and serves as a directory for our exciting current product line. Most hunters and shooters took their first shot with a Daisy BB gun, and, My first gun was a Daisy, is a comment we never tire of hearing. While they may have an arsenal of airguns and firearms today, they value that first old Daisy as much as anything in their gun safe. For the shooting industry, It all starts here....with a Daisy. Thanks, Blue Book , for helping to preserve the shooting heritage that s so important to all of us. --- Ray Hobbs, President C.E.O. and Chairman of the Board of Directors, Daisy Outdoor ProductsAbout the AuthorAirgun historian and Lewis and Clark Heritage Trails Foundation member Robert Beeman Ph.D. is a Professor Emeritus at San Francisco State University and former National Science Foundation Research Fellow at Stanford University. He is the founding publisher of Airgun Journal and Airgun News and the senior author of the international series: the Blue Book of Airguns. Robert and his wife, Toshiko, are co-owners of the Beeman Airgun Collection and founders (in 1973) of Beeman Precision Airguns, Inc. John B. Allen is the long time Associate Editor of the Blue Book of Gun Values, author of the Blue Book of Airguns, the Blue Book of Modern Black Powder Arms, and editor of the Blue Book of Tactical Firearms and the Ammo Encyclopedia.
