Fabrice Guéroux : Real Fake Watches before purchasing it in order to gage whether or not it would be worth my time, and all praised Real Fake Watches:

0 of 0 people found the following review helpful. Overall a pretty nice bookBy Petter BörjessonOverall a pretty nice book! I really like the photos, high quality and lots of them. As an entry-level book on the topic it was good, however I was hoping to get some more fact about the business behind the fakes,0 of 0 people found the following review helpful. Best ever. Product rwal fake next to eachother so ...By Bobby JacobsBest ever . Product rwal fake next to eachother so cool.Other ones I bought suck0 of 0 people found the following review helpful. Good reference bookBy

appraiserWell-researched

How can you tell a fake watch from a real one? Where are fakes made? What grades of quality can one find among so-called "replicas"? How can one buy a watch on the internet? How can one avoid fraudulent copies? These are just some of the questions to which any wristwatch enthusiast needs to find answers in an era when counterfeiting luxury products has become an industry in its own right. This book, of which the greater part is devoted to the most prestigious watch brands, provides readers with vital information on identifying fakes. It aims to ensure that buying a watch from a private individual, from a professional or on the internet (the global hub for the sale of fake watches) does not turn out to be a nightmare! Illustrated with over 500 photos, the differences between original and counterfeit models are exposed in detail (mechanisms, dials, bracelets, etc.). To our knowledge, no other work of this type has been published to date, doubtless due to the explosive nature of this fascinating topic.
