Francis Haskell : Rediscoveries in Art: Some Aspects of Tastes, Fashion and Collecting in England and France
before purchasing it in order to gage whether or not it would be worth my time, and all praised Rediscoveries in Art: Some Aspects of Tastes, Fashion and Collecting in England and France:

4 of 4 people found the following review helpful. artistic tasteBy A CustomerThis work is focused on the evolution of artistic taste in France and England during the 19th Century. Though strongly documented, this book is almost an adventure novel. Because the history of taste and collecting paintings is the story about how esthetic perception fluctuates. And the author choosed to review in his work the majority of the cultural "dossiers", highliting some remarkable figures (art collectors, art historians, travelers) as well as the impact on the visual arts of fields such as literature or new printing methods.
