**Richard Dennis : Robert Jefferson: Quiet Virtuoso** before purchasing it in order to gage whether or not it would be worth my time, and all praised Robert Jefferson: Quiet Virtuoso:

Robert Jefferson truly was a multi-talented man expressing his gift for design in many ways. This book illustrates all aspects of his life's work so much of which centred round his intense love of nature.

About the AuthorRichard Dennis is reader in geography at University College London, convenor of the London Conference for Canadian Studies, and secretary of the British Association for Canadian Studies.
