Royal Doulton Series Ware Vol. 4By Marilyn J. RansonIf you want to collect

Royal Doulton series ware, I consider all four volumes in this series a "must have." I like this book because of the detailed photos -- the author goes way beyond just giving you a taste of Royal Doulton. If you only have one or two pieces of series ware, this book will help you identify them and let you see the whole spectrum of items that would complete your collection. While a terrific reference, this book is not a price guide and no prices are included. The only thing I wish this book had was more color photos. The china is so beautiful it deserves more color. That is the only reason I didn't give this book 5 stars. Louise Irvine really knows her Royal Doulton - this book looks like a labor of love to me.

Covers 'In a Man's World, 'Travel Through the Ages, ' Sports Leisure.
