**Louise Irvine : Royal Doulton Series Ware (Vol. III)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Royal Doulton Series Ware (Vol. III):

1 of 1 people found the following review helpful. For Very Specific Collectors ONLY By C. Nichols Even though the item description clearly states 112 pages, I apparently didn't read it closely enough was very surprised when this "booklet" arrived! Perhaps the information contained in this small booklet is difficult to find elsewhere, but unless you are specifically a children's nursery rhymes series collector, this book is a waste of money! Had I seen it in a bookstore, I would have passed it by unless it had been on sale for \$5-\$7 MAX. If you do collect primarily nursery rhyme Royal Doulton, it "might" be worth the investment, assuming you're having difficulty finding the info in more

comprehensive volumes. That is not the case for me, so I was very disappointed!

Children's stories, games and pastimes, nursery rhymes and more.
