ManleyWell, for the very tiny group of people looking for this book, and you know who you are, god knows no one else is looking for it; so this is it!!!.. The only book, ONLY book out there on this subject, which I find very distressing. This has more info than you can imagine on all these painters and their many seals, there is NO BETTER BOOK PRINTED. I got mine a few years ago, and it cost a fortune then too, but I was able to identify many paintings I have that I did not know the artists, and to verify the seals of others. (Or not). It is hard to believe these two people back in the 30's were able and willing to go through 6,000 paintings and photograph on a crummy "fingerprint" camera, each largely illegible seal(s) on them.I wrote to the Hong Kong University Press, and they responded that no one was interested in the book and they were not going to reprint it ever. (they printed the ppbk in 1966, and again in 1982, but that's it) So if you need this book, get it now, whatever it costs. It will only keep going up in value.Litaipo2
