Every genre is included and balanced in choice of listed authors - old and new. No book can do it all, but when internet access is neither accessible or practical this book will be helpful. SInce this is

a 2002 edition you should not expect current prices or the most recent authors.3 of 4 people found the following review helpful. Far from comprehensive...many missing titles...By C. KentBought this book to take along to book sales, yard sales, flea markets, etc. I thought it was a complete listing of many popular authors, but I was surprised to find it is actually a listing of a booksellers inventory, so many major titles are missing from the authors. Dr. Seuss is listed, but not Cat in the Hat. Stephen King is listed but only some of his books. Allan Ginsberg is listed but not his most famous title, Howl. I was hoping it was portable, but it's actually quite large. It'll due in a pinch but I am looking for something more comprehensive and possibly pocket sized.0 of 0 people found the following review helpful. bookBy deskjet820this book has been very helpful I have enjoyed quite a bit I am glad that I have purchased it
