**Richard Snow : The Official Red Book: a Guide Book of Indian And Flying Eagle Cents** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Official Red Book: a Guide Book of Indian And Flying Eagle Cents:

0 of 0 people found the following review helpful. Five StarsBy James D. ColemanAll the information you'll ever need to procure, collect, evaluate, or sell these pennies. No other publication comes close.2 of 2 people found the following review helpful. Best In-depth Flying Eagle/Indian Head Reference GuideBy kmeyersvRick Snow is without a doubt the foremost authority on the series. As a serious collector myself, this has become a well worn book for me in a short

period of time. Rick presents suggestions on collecting each year's coin in both optimum circulated and uncirculated grades. He provides "snapshots" in history for each year of the series, which is fascinating and ties in well with the discussion on each coin. If you are only a casual collector, then it's likely a current Redbook will do you well. If you are fascinated by this series and want to dig deep into the history, striking characteristics and varieties of each coin, then Rick's book is a must have! 0 of 0 people found the following review helpful. Make Dollars from Cents By john Everything you need to really enjoy and enhance the collecting experience. Great pictures in depth technical material. A must have for the serious collector.

This book provides complete history and price guide on Indian and Flying Eagle Cents. This is a great edition to the Official RedBook Price Guide Series. Author Richard Snow
