**H E Harris Company : The Official U.S. Mint 50 State Quarters Portfolio** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Official U.S. Mint 50 State Quarters Portfolio:

0 of 0 people found the following review helpful. worth the extra bucksBy Linda M.This portfolio is sturdy and well-designed. The slots for the quarters are tight so you dont have piles of change when you set it down. Nice descriptions of each state next to slot. Well worth the few dollars extra.1 of 1 people found the following review helpful. oversized portfolioBy Kathleen PfeifferThis is a classroom size state quarter portfolio. With facts about each President, state trivia and room for all the state quarters, including both mint sites, this is a good beginner's coin holder . I enjoyed reviewing the American facts and the short biographies of the Presidents as much as I did filling in all the spaces for the coins. My grandkids liked it so much they started collections of their own, which was my original intent anyhow (:D).3 of 4 people found the following review helpful. Great Keepsake!By Ruth-Ann McKellinMy 5-year-old received this as a gift and has thoroughly enjoyed collecting the state quarters. I just bought one for my newborn and will collect for her until she's old enough to do it herself--especially since this will be continuing a number of years!

Mint 50 state collectors edition stamp portfolio.
