Book May Be OK for Matchbox Cars, But NOT for Sky BustersBy KL1968I bought this book mainly because I am a Sky Buster collector, and when I went to the section on Sky Busters, it was sorely lacking. The section on Sky Busters was VERY incomplete for models up to 2004. There were very few pictures, short and missing listings for each model, typos, and just plain general errors. Gave me an idea to do a book

of my own on Sky Busters, considering I have not found a GOOD, useful, and mainly complete guide on Sky Busters. As I said in the title, if you are looking to buy this book for just the Matchbox Cars it describes it may be OK (although I'm not an authority on Matchbox Cars, so I can't be sure), but definitely not when it comes to Matchbox Sky Busters...just a truthful review.0 of 0 people found the following review helpful.
